WHAT IS YOUR PLACE OUR PLACE?

Your Place Our Place is one of the first pilot of the CCQoL project. It involves community consultation through activities at an Urban Room and a digital mapping tool.

WHAT IS AN URBAN ROOM?

Urban rooms are spaces in towns and cities which offer local communities a place to exhibit and discuss issues that affect the community around future development.

This Urban Room in Broad Street Mall will be providing information to the local community about key issues such as the Reading Town Centre Strategy, offering a place for discussion to encourage awareness and connection between various communities. The activities in the Urban Room are based on the weekly topic decided from our analysis of the Quality of Life framework and the Reading Town Centre Strategy by the local council. Quality of Life framework is a set of principles established by the Quality of Life Foundation.

WEEKLY TOPICS

WEEK 1 Introduction and Business Community

The first week we will introduce the community consultation and have workshops focussing on business in Reading and the Region.

WEEK 2 Health & Wellbeing

The second week the focus will be on Health and Wellbeing and a range of community groups and organisations will have workshops and discussions on this theme and important issues in Reading.

WEEK 3 Culture & Heritage

The third week of the programme will focus on culture and heritage projects in and around Reading and there will be workshops, talks and activities to engage our community in creative activities around Reading.

WEEK 4 Climate Change

The fourth week of the programme will have discussions activities and workshops related to climate change and its impact on our community.

WEEK 5 Future of Reading

The final week of the programme is about looking forwards to consider what the future could hold for communities in Reading.
